

2006 Homeless Quality Survey Results

During the week of February 13-17th 2006, in addition to the annual homeless count, service providers surveyed their clients about the quality of their existing programs and services still needed. HED received 108 completed quality surveys. The evaluations provide insightful information about client perspective in regards to homeless services.

There were 13 categories of possible types of service. Reported below is the rank order of desired services, based on the number of respondents that indicated they would like to receive that particular service. Since there are a large number of categories of services that could be desired, as well as a small number of respondents in some of the categories, it is somewhat difficult to get a clear picture of which services are most highly desired. Different segments of the survey population also have different priorities; for example single males do not desire child care services and non-addicted females do not desire addiction therapy. In an attempt to simplify reporting, we developed a composite rank ordering system.

Dental assistance received a composite ranking of 1.00, meaning that it was the number 1 most desired service across all samples. Its 10.75 composite rank among currently received services means that it was the least likely to be received.

To help visualize the comparisons between services received, services not received and services desired, it is helpful to use a scatter plot. This graphical representation uses each services composite current score as its x-axis coordinate and its composite desired score as its y-axis coordinate. Each data point is labeled.

2006 Homeless Count Results

During the week of February 13-17th 2006, the annual point-in-time homeless count was conducted throughout Athens-Clarke County. The results are tabulated below.

2006 Homeless Count Results

Exhibit 1: Continuum of Care Homeless Population and Subpopulations Chart

Part 1: Homeless Population	Sheltered		Unsheltered	Total
	Emergency	Transitional		
1. Homeless Individuals	105	138	76	319
2. Homeless Families with Children	32	24	3	59
2a. Persons in Homeless Families with Children	78	67	11	156
Total (lines 1 + 2a)	183	205	87	475
Part 2: Homeless Subpopulations	Sheltered		Unsheltered	Total
1. Chronically Homeless	93		29	122
2. Severely Mentally Ill	90		32	122
3. Chronic Substance Abuse	196		35	231
4. Veterans	21		13	34
5. Persons with HIV/AIDS	N/A		N/A	N/A
6. Victims of Domestic Violence	25		7	32
7. Youth (Under 18 years of age)	86		8	94
8. Employed	27		1	28
9. From Athens-Clarke County	163		53	216

	Total	Males	%	Females	%
Single	319	268	84%	51	16%
With family	62	7	11%	55	89%
Number of Children	94	11	12%	83	88%
Employed	146	105	72%	41	28%
...Employed PT	70	44	63%	26	37%
...Employed FT	76	61	80%	15	20%
Receiving SS/SSI/FS/TANF	92	61	66%	31	34%
Veteran	34	34	100%	0	0%
